●What is the Host Family Program (OHP)?

The Center for International Education and Exchange (CIEE) offers a unique opportunity for international students to connect with local families through the Host Family Program.

Please note that OHP is NOT a home stay program. OHP allows you to meet a local family in neighboring area while you pursue your studies at The University of Osaka. You can arrange meetings and activities together, such as visiting their home, sharing meals, exploring local attractions, and more. The frequency and location of these interactions are entirely flexible and determined by you and your host family. Generally, any associated costs are split between you both. The program runs for five months, typically from October to February.

●Who can participate?

This program is open to international students at The University of Osaka who arrived after October 10th, 2024, have never participated before, and are available to attend the initial meeting with host families on October 25th (Sat.), 2025.

●Applications open: Sep. 18th (Thu.) - Oct. 7th (Tue.) 17:00

- Tip ▶ When you dry your laundry, hide it from the public eyes.
- ▶ Choose simple curtains for your safety.

When you come home

- Make sure of being no one around you before opening the door.
- After unlocking the door, get inside the home immediately and make sure to lock the door!

When you go out/While you go out

- Avoid dark and lonely roads at night.
- Using headphone and smartphone while walking are dangerous.
- ▶ Holding "crime prevention buzzer" to protect yourselves. You can purchase it at 100-yen shop.

Warning!
Special Fraud

Examples of Fraudulent Schemes

Scammers may impersonate police officers, city officials, immigration officers or other figures of authority, contacting individuals by phone or even visiting their homes.

They may attempt to create a sense of urgency and fear by showing fake police identification or arrest warrants.

Under the pretext of investigating your account or preventing money laundering, they may ask you to hand over your cash card and bank book, or instruct you to transfer funds to a specific account via ATM or online banking.

To avoid Special Fraud

- If you encounter a situation that seems suspicious or makes you uncomfortable, please hang up the phone immediately, do not allow anyone into your home, and contact your family, the university, or the police.
- Please remember that legitimate police officers and city officials will never ask for your cash card, bank book, or PIN, nor will they demand money transfers.
- We encourage you to be mindful of your online presence and avoid sharing personal information* on SNS.
*Do not give the third-party your personal and shared information among your various groups such as names, phone numbers and e-mail addresses without consent.
- It's also helpful to discuss these safety tips with your family and stay informed about fraud prevention measures.

Social Media Guidelines

Social Media Guidelines

What is social media?

Social media is a digital technology that facilitates the sharing of information and ideas through virtual networks. From social networking, such as Facebook, Twitter, and LINE to video sharing sites, social media covers broad platforms that allow users to share content and build communities.

Social media allows for quick and easy information sharing; however, once something is out on the internet, it is there and can be nearly impossible to completely delete. Your post might be shared or used by someone in an unintended manner, which may not only cause negative impacts on you, but also may violate the rights of others.

Even anonymous posters can be identified. If the anonymous poster is identified as a student at OU, this will undermine the public's confidence in the university and damage the university's reputation. Thus, you should use social media in a safe and responsible manner with proper consideration to the risks posed by social networking.

Stop and think before you post! Did you break any of the following rules of social media etiquette...?

1. Posting a photo of binge drinking at a party on social media
2. Posting someone's images from the Internet on social media without their permission
3. Posting safe information of a store at which you work part time on social media prior to the store's announcement
4. Publishing cruel statements that target a specific person on a social networking site and bullying the person by their peers
5. Not removing information about a drinking party, which was cancelled due to the COVID-19 pandemic, from social media
6. Posting photos and videos containing a shipping label displaying the address and name of the recipient and a power pole showing the street address to social media
7. Posting text messages about obnoxious acts at shops on social media while drunk with the name of your school or club published

If any of the above come to mind, it may result in irreversible consequences. Extreme caution is advised.

Peruse the Dr. Wan's Social Networking Leaflet to learn more about social media and its dangers and use social networking services with caution so that you can avoid irreversible damage.

14, Tips for renting apartment in Japan

Tips for living in a rental apartment in Japan

House rules / points for daily attention

- Read over your lease contract, the resident manual and follow the instruction.
- You are not permitted to live with someone who isn't on the lease.
- Be careful not to be noisy late at night.
- Follow the rules for taking out the garbage.
(The way for putting out the garbage differs depending on the neighborhood in which you live, so ask the landlord (the management company) or the municipal office about the rules for taking out the garbage.)
- Please contact the landlord (the management company) and the department office immediately when you have any troubles in your apartment.

When you leave your apartment for a long time....

- Be sure to pay your rent in advance when you leave your apartment for a long time, such as an extended leave or travel for temporary visit.
- You should also inform the landlord (the management company) and the department office that you will be away for a long time.

When you move out....

- You should notify the landlord (the management company) that you wish to move out at least one month in advance.
- Please do not leave any of your possessions or garbage behind and ensure that it is clean.
- You should check in advance how to dispose home appliances and bulky garbage.

You should check with your landlord (management company) to see how much restoration (returning the apartment to its original condition) is required. If there are things left in the apartment or the apartment is damaged, you may have to pay. Thus, it is important to keep the apartment in good condition and clean it properly at the end.
